I like the idea of Peeps (not the execution).

And I don't like the proliferation of Peep-like entities. Peeps should be yellow and should make you go Huh? when you try to figure out what animal the peep represents.

The local Wallyworld had no yellow-it-might-be-a-baby-chicken peeps, but lots of other colors and shapes. Travesty!

As of yesterday, peeps of the yellow variety are in stock at the SuperTarget in town.
Woo hoo. Now I just have to get past the prospect of eating horse rendering.

A little early to be eating peeps. Like a fine red wine, they get better with age.

I like to pop them in the microwave before consuming. See https://www.youtube.com/watch?v=INgQ-EHejUA.
